

Devante Gandy

Niagara Falls, NY 14301
+17165209019

devantegandyse@gmail.com

A highly skilled and results-driven Full-Stack Software Developer with expertise in designing, developing, and optimizing dynamic web applications. Proven ability to work with both front-end and back-end technologies, including JavaScript, C#, React, and .NET Framework, to deliver scalable, high-performance solutions. Adept at collaborating with cross-functional teams to improve user experiences and streamline workflows. A motivated self-learner committed to leveraging emerging technologies to drive innovation and achieve business goals.

Skills

Programming Languages: JavaScript, C#, Python, HTML/CSS

Web Development: React, Next.js, Adobe Experience Manager, Django, Kendo Grid

Frameworks & Libraries: .NET Framework, ReactJS, Django, Next.js

Databases: Microsoft SQL Server

Cloud & Hosting: Azure, Amazon Web Services (AWS)

Version Control: Git

Other: Agile methodologies, Object-Oriented Programming (OOP), API Integration, UI/UX design (Figma)

Work History

Jr. Software Engineer

HOSPITALITY FURNISHINGS & DESIGN, INC.,
Remote

February 2023 - Current

Technologies: JavaScript, HTML/CSS, C#, .NET Framework, Microsoft SQL Server

- Spearheaded the **Redesign and Redevelopment of the Vendor Portal**, improving functionality and user flow, which led to a 30% increase in productivity for internal users.
- Set new company standards for building data-driven grids using **Kendo Grid**, improving module speed and reducing page load times by 25%.
- Led the **Blades System Redesign**, enhancing the workflow for sales representatives and reducing data retrieval times by 20%.
- Developed and maintained high-performance features and integrated **Microsoft SQL Server** to enhance system reliability and functionality.

Full-Stack Web Developer

Entropy, Remote

September 2021 - February 2023

Technologies: Adobe Experience Manager, JavaScript, HTML/CSS

- Developed and maintained scalable, dynamic websites using **Adobe Experience Manager (AEM)**, driving user engagement and performance.

- Collaborated with technical and non-technical teams to design user-friendly interfaces for diverse stakeholders.
- Optimized cloud infrastructure using **AWS** to enhance website performance and ensure high availability.
- Delivered efficient solutions by integrating **AEM** with other technologies, improving content management workflows and reducing operational overhead.

Software Engineer Fellow

General Assembly, Remote

March 2021 - June 2021

Technologies: **Python, JavaScript, HTML/CSS, Django, React**

- Developed full-stack applications using **Python, Django**, and **React**, incorporating industry best practices in design and development.
- Utilized **Figma** for UI/UX design, ensuring seamless user interfaces that met both functional and aesthetic requirements.
- Implemented third-party APIs and added advanced functionality, delivering comprehensive solutions with an emphasis on scalability and maintainability.
- Collaborated on agile teams, enhancing communication skills and delivering projects on time.

Education

Certification in Software Engineering Immersive June 2021

General Assembly at Remote

- Completed a full-stack software engineering boot camp with hands-on experience in modern web technologies, Agile workflows, and Git version control.
- Worked on multiple team-based projects, emphasizing collaboration, problem-solving, and project delivery.

Projects

Azimuth Real Estate Group

Dec 2022

Technologies: **JavaScript, HTML/CSS, Next.js, React**

- Developed an advanced **property filtering system** using **Next.js** and **React**, improving user experience by enabling more intuitive search functionality.
- Integrated dynamic **image carousels** and separate routes for buying and selling properties to enhance user interaction and drive engagement.

Portfolio

Dec 2024 – Present

Technologies: **HTML/CSS, JavaScript**

- Designed and developed a personal portfolio showcasing skills and projects, emphasizing responsive design and minimalistic UI principles.
- Integrated JavaScript for interactive elements, demonstrating a functional and visually appealing personal website.

Certifications and awards

- Software Engineering Immersive, General Assembly, 06/21
- Azure Data Fundamentals, Microsoft, 02/24
